paragraph:

[048] The guick clamp and guick release device invention is incorporated

Art Group: 3671

Examiner: Novosad, Christopher J.

in a clamp that can quickly clamp and release an object between two plates.

The quick clamp and quick release device invention enables a user to quickly

clamp an object with one hand and without the need for mechanical assistance to

increase the clamping pressure on the clamped object like a screw clamp or a

ratcheting clamp. The quick clamp and quick release device invention enables a

user to quickly clamp and release objects such as bicycles, shotguns and other

objects without damaging those objects in the clamping process. The clamp can

be mounted to a wall, table or other structure to provide a convenient and easy

way to store and mount objects.

**Amendment to the Specification:** 

Please replace paragraph [014] with the following amended paragraph:

[014] FIG. 4 illustrates section 4-4 of FIG. 3 FIG. 4.
